<http://zlechien.weebly.com>**Objectifs du cours:**

Le but du cours de français 8 est d'encourager les élèves à parler en français. Cela signifie que la participation et la pratique seront les clés de leur succès ! Tous les quatre aspects d'une langue seront traités et évalués : lecture, écriture, expression orale et écoute. De plus, les élèves auront l'occasion de découvrir différents aspects de la culture française. La compétence plutôt que la perfection est le but.

Course Objectives:

The goal of the French 8 course is to encourage students to speak French. This means that participation and practice will be the keys to their success! All four aspects of language learning will be addressed and evaluated: reading, writing, speaking, and listening. In addition, students will have the opportunity to experience various aspects of the French culture. Proficiency rather than perfection is the goal.

We will be working on the following essential language competencies:

1. À l'orale (Speaking): You will participate in a variety of real-life situations, have conversation in groups and in pairs, ask and give information, describe simple situations, express an opinion, and give oral presentations on specific topics.
2. À l'écoute (Listening): You will learn to listen and understand the teacher's instructions in French. You will be able to understand the general meaning while listening to videos, read alouds and Francophone music.
3. À la lecture (Reading): You will be able to understand the gist of authentic French texts (news articles, magazines, books and other documents) and respond to them in a personal way.
4. À l'écriture (Writing): You will be able to write a variety of compositions including journal entries, projects and assignments. It is strongly recommended that students use the site www.bonpatron.com and a spelling checker (Word, OpenOffice) to help edit their work.
5. La culture: You will discover French culture through films, music, French read alouds, video clips, celebrations, idioms, etc.
